

WELCOME TO VIM HEALTH

We support people living with a spinal cord injury, recovering from a stroke, Multiple Sclerosis, Cerebral Palsy, Parkinson's Disease and with other neurological conditions.

Our Neurorehabilitation centre and accessible gym is based in Hassocks, Mid Sussex. We have qualified healthcare professionals on hand to deliver bespoke intensive rehab programs using state-of-the-art upper and lower limb robotics.

OUR VISION:

-To empower people on their rehabilitation journey

-To create a safe and inviting space for people living with an impairment to exercise in

-To tackle the health inequalities seen within the disabled community

-To work with charities and commissioning groups to ensure that spaces like ours become accessible to everyone

WHAT MAKES US UNIQUE?

The latest cutting-edge technology

Our physio-led accessible gym

Our clinical team, who ensure governance and evidence-based treatment.

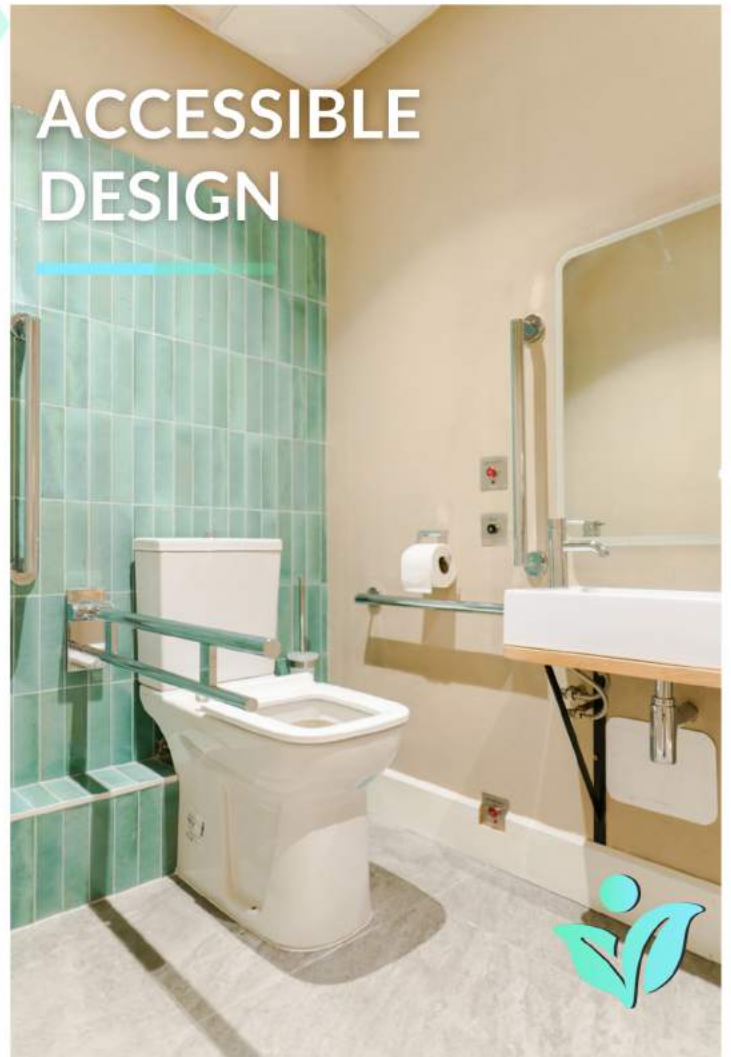

THE GYM

Our beautiful toilets and changing spaces were curated by accessible design company MotionSpot

ACCESSIBLE DESIGN

VIM HEALTH BURSARY SCHEME

We created our VIM Health Bursary Scheme to further support those who need rehabilitation but might not have access to it due to financial circumstances. This is a non for profit scheme where we provide rehabilitation services for individuals at cost.

How does the Vim Health Access scheme work?

VIM Health assesses each application on an individual basis, and offers a rehab program at a reduced rate based on individual circumstances. In some circumstances this reduced rate can also be subsidised by one of our partner charities.
